Jim: here are a few images that you might find of interest (including the attachment from TCEQ).... I am still trying to locate the one that has all the reefers and tanks labeled more clearlyJust let me know if you have questions or need more information:

Low resolution aerial images pulled from the aircraft while in flight over the facility, 30 August 2017 at about 0730 hrs

CST.

Flight path over the facility at 0731 hr CST (1231 hrs UTC) showing several passes where aerial imagery and IR sensors are active
